Auto34 Tire Changer Customer Testimonials Pouring In

HUNTER Engineering Company

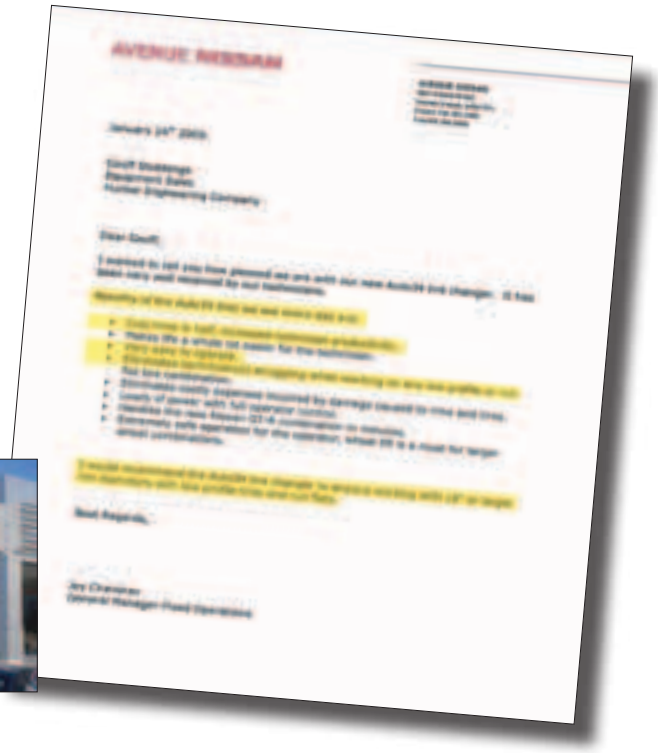
Read what service pros are saying about Hunter's Auto34 Tire Changer...

"Benefits of the Auto34 that we see every day are:

- *Cuts time in half...*
- *Very easy to operate....*
- *Eliminates technician(s) struggling..."*

"I would recommend the Auto34 tire changer to anyone working with 18" or larger rim diameters with low profile tires and run flats."

Jey Chandran
General Manager
Avenue Nissan
Toronto, Ontario, Canada



AVENUE NISSAN

Dear Geoff,

I wanted to let you how pleased we are with our new Auto34 tire changer. It has been very well received by our technicians.

- Cuts time in half...
- Very easy to operate....
- Eliminates technician(s) struggling when working on wide and low profile or run flat tire combinations.
- Eliminates costly expenses incurred by damage caused to rims and tires.
- Lowers of stress with full operator control.
- Handles the new Nissan GT-R combination on machine.
- Extremely safe operation for the operator, when lift is a must for larger wheel combinations.

I would recommend the Auto34 tire changer to anyone working with 18" or larger rim diameters with low profile tires and run flats.

Best Regards,

Jey Chandran

"We mainly service Porsches and other high end vehicles and if we damage a rim it can be very costly."

"We have yet to find a wheel and tire the Auto34 can not handle with ease."

Peter Rutkowski
Performance Automotive, Inc.
Malvern, Pennsylvania

"After spending a fair amount of time researching our options, the Hunter Auto34 tire changer was the clear choice. It has not disappointed."

"It makes all tire changes easier, quicker, and safer for the tire, rim and technician."

To whom it may concern:

I wanted to drop you a note to let you know how happy we are with our recently purchased Hunter Auto34 tire changer. It seemed for a while that the Coats 4040 we bought in 1984 he was going to work for us forever. By the time we bought in 2002 was working fairly well, but as the profile of tires has become smaller over the last few years, it has struggled. Trying to change a BMW run flat was the deciding factor. This time we did not put off upgrading. After spending a fair amount of time researching our options, the Hunter Auto34 tire changer was the clear choice. It has not disappointed. It makes all tire changes easier, quicker, and safer for the tire, rim and technician. It is the perfect mate for our Hunter road force machine.

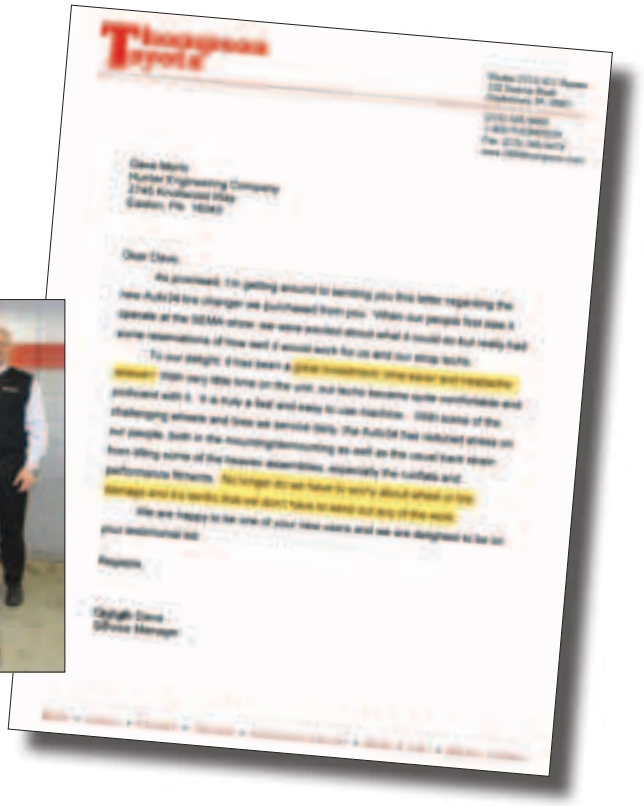
"...great investment, time saver and headache reliever!"

"No longer do we have to worry about wheel or tire damage and it's terrific that we don't have to send out any of the work."

George Davis
Service Manager
Thompson Toyota
Doylestown, Pennsylvania



"I contacted a couple manufacturers... Each one promised me that their machine was the strongest and easiest to use."

"Seeing this machine in action made it quite simple to decide which one to purchase."

Kevin Spezzano
Service Director
Bernardi Toyota
Framingham, Massachusetts
